www.plum-mobile.com

The highly professional team of Plum Mobile is comprised of a group of passionate individuals with combined experience of more than 40 years in the communication industry. Our mission is to lead the next wave of cellular phone suppliers, making sure to meet the growing demands of our globally situated clients.

All plum mobile phones are FCC approved and certified, with our focus on providing the best handsets in the market. Striving to supply our region with the most sophisticated and advanced headsets available, we have joined forces with the top manufacturer to make certain all handsets meet with stringent criterion that complies with the same requirements of manufacturers such as LG & Samsung. We also work in close collaboration with Top IT companies that provide the quality and technology comparable to manufacturers such as HTC, Pantech and many others.

Our business infrastructure is solidly in place and our business model demonstrates our ability to provide our customers with the products and services they desire at a cost that is fair and competitive. Because we understand the lifetime potential of each consumer, we value our clients a great deal and make sure to give them our best. Not only do we carry a large volume of inventory, but we also provide up-to-date best in class products that assure value to our customers. In addition, we offer quality, good pricing, after sales services, warranties and total customer satisfaction. Most important, we are available to support our distributors in all countries, as we do our utmost to make sure their business is profitable and successful.

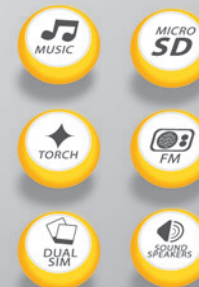

As part of our commitment to our customers to provide them with the best in class after sales service, we carry a complete line of parts. Software support and accessories for all models are also available in stock.

For further information please contact your local Plum Mobile Distributor or visit www.plum-mobile.com
